	Actual			10	9					

DFA MONITORING

Plan, monitor and report progress on strategic and operational plans.

Our Advantage

- ✓ Highly configurable.
- ✓ Customised key performance indicators.
- ✓ Dynamic monitoring dashboard.
- ✓ Activity reporting, with linkage to budget, donors, geography among others.

Logical Framework Integration

Dynamic logical framework to monitor the performance of your program.

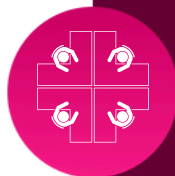

Collaborative Reporting

Sophisticated user management module and data approval feature to eliminate reporting bottlenecks.

Transparent Results

Dynamic suite of reports and dashboard that support evidence-based decision-making.

Multi-Workspaces

One application, multiple workspaces to monitor your various programs.
